BeBuddy-Newsletter 09/2021

1) To all our local Buddies: We need you ☺

The new winter term 2021/2022 is about to start. A new exciting phase, especially for all our new international freshmen! Many of them signed up for the BeBuddy program as a mentee, now waiting to be matched with a Buddy – like you? ;-)
If you're interested in supporting a new international student and you're mostly on site in Aachen, please update your Buddy profile in the database so we can match you with a mentee. You can also write us an email to bebuddy@rwth-aachen.de with your dates of availability and the amount of mentees you would like to support.
Of course, being trained a s a buddy is a prerequisite for that ☺
Also, if you have friends who would also like to become active as a buddy, please spread the word. We are always looking for new buddies. The only thing they have to do is to pass the virtual BeBuddy training. **Being at least in the 2nd semester and German language skills on a B1 level are obligatory**. If they fulfill these prerequisites, they are welcome to register for the BeBuddy training via email to dominika.dudzik@zhv.rwth-aachen.de.
We look forward to hear from you!

2) EigeniniPlus- Training series for members of student associations from October- November 2021

With the first implementation of the digital training series EigeniniPlus, we would like to give you as members of student initiatives the opportunity to expand, deepen or refresh your skills. For this purpose, we offer workshops and seminars on different topics of work in a student initiative, which are taught by experts of the university. Furthermore, you can get to know students from other initiatives, exchange ideas and network. Further information as well as the registration for the individual events can be found here.
We are looking forward to your numerous participation! If you have any questions or comments, please contact: studini@rwth-aachen.de.

3) Learn coding in Data Science, Artificial Intelligence, Web Development for free with TechLabs Aachen e.V

The student initiative TechLabs Aachen offers students the opportunity to broaden and deepen their tech skills. Learn Data Science, Artificial Intelligence, and Web Development courses by means of the pioneering Digital Shaper program that combines online learning, project work as well as community events - and is completely FREE for everyone! You do not need any previous experience in coding to start the program and it is completely in English. You can apply here from 13th September to 7th October. Still not convinced? Then attend our Information Session on 28th September for more details! The application form can be found here. Already well versed in coding and looking to manage cool projects? Then join us as a Mentor!

Reach out to us at journey.ac@techlabs.org in case of any further questions, we are happy to help!

4) Consulting insights with Saskia Weber

The Aachen Consulting Club e.V. has got another exciting event for you!
This time, they partnered with Saskia Weber, a consultant at Bain and Company. She has worked on her Ph.D. at the RWTH Aachen University on the topic of „Harmonious and Obsessive Passion in Entrepreneurship". Saskia has been working at Bain and Company since 2016 in financial services with a major focus on insurance.

For those of you who don't know anything about Bain and Company, here are some insights: Bain and Company is one of the "big three" or also called MBB. These are the three largest and most renowned strategy consultancies in the world.

But Saskia has way more up her sleeve and covering everything in this text would exceed the scope. So if you want to know more about Saskia and her Job at Bain and Company, this event is your place to listen to an inspirational consultant to acquire consulting insights. Sign up here.

5) BierTemp – The ASTA invites you to their student beer garden

The BierTemp is ASTA`s temporary beer garden on the Templergraben. Every Friday - weather permitting - you will find the beer garden on the Platanenplatz from 6pm on, directly across from the RWTH main building. With a changing assortment, they offer beer, cider and soft drinks at student prices. You may bring your own food.

Please note that masks are mandatory in the beer garden outside the seating area and contacts have to be tracked. Further measures may follow depending on how the pandemic develops.

All the revenue will go back into cultural activities on and around the Templergraben. More information on the ASTA and its projects can be found on their website.

Enjoy the summer sunshine!

Dominika Dudzik, Wen Wei, Haiyan Saadi and Luis Jamora from the BeBuddy Team
