CMS'2006 is the 10th Conference in the "Communications and Multimedia Security" series. The series is a joint effort of IFIP Technical Committees TC6 (Communication Systems) and TC11 (Security and Protection in Information Processing Systems). The conference provides a forum for engineers and scientists in information security. State-of-the-art issues as well as practical experiences and new trends in the areas will be the topics of interest again, as proven by preceding conferences. In this year the conference in particular addresses network and information security issues.

We solicit papers describing original ideas and research results on topics that include, but are not limited to:

- Applied cryptography
- Biometrics
- Computer emergency / security incident response
- Critical Information Infrastructure Protection
- Digital watermarking
- Identification and authentication
- Identity management
- Information security management
- Intrusion detection
- Mobile communication security
- Multimedia systems security
- Network and Information Security
- Privacy protection
- Risk Management
- Web Services Security
- Wireless Network Security

Organized and supported by:

**FORTH
ICS**

Instruction for authors:

The proceedings will be published by Springer. Submissions must be written in English, formatted in the conference style (limited to 10 pages, see the conference web for a style template). The paper must be anonymous, with no author names, affiliations, acknowledgements, or obvious references. Authors are requested to submit original papers only. Papers that have previously been published and papers that are currently being considered for publication by another journal or conference are not eligible.

Each paper must include a short abstract and a list of keywords indicating subject classification. Its introduction should summarize the contributions of the paper at a level appropriate for a non-specialist reader.

All submitted papers will be refereed by members of the Program Committee for correctness, originality, relevance to the conference, and quality of presentation. Acceptance of a paper means an obligation for at least one of the authors to attend the conference and present the paper.

To submit a paper, visit the conference web site.

Important dates:

- Paper submission: 5 May 2006
- Acceptance notification: 26 June 2006
- Camera-ready papers due: 20 July 2006
- Conference: 19-21 October 2006

Conference Web site: <http://www.ics.forth.gr/cms06>
