1) Register now for the Workshop on Intercultural Communication – Sept 7-9, 2021 (online)

Working in international teams requires intercultural competence, awareness and solution finding in possible conflict situations. During the three days virtual seminar, students are given the opportunity to develop their intercultural competence, a skills set which becomes ever more useful for all professional activities and which is thus looked for by prospective employers. As the seminar is held in English, you will also improve your English language proficiency. Therefore, you should bring a basic knowledge of English so as to be able to participate in discussions and group activities. At the end, you will receive a certificate of participation. Attendance on all three days is required.

The workshop is free of charge and is held by Alexia Petersen. Ms. Petersen is a highly experienced trainer and consultant in intercultural communication, working with various target groups in both universities and research institutions, and international companies.
