

Excursion Week in Computational and Mathematical Modelling

- What?** Supported by professors and PhD students, you will work in **small teams** of 6 students from different courses of study on recent research topics of the **Forschungszentrum Jülich**. You will get in touch with current mathematical questions of different **interdisciplinary** research fields. A variety of topics, ranging from machine learning in material science, molecular dynamics and the data fit of gravity waves to image processing, assures that all areas of interest are covered. In the end of the week the obtained results will be presented. The CAMMP week Pro provides an interdisciplinary complement to your course of study and grants you insight into the application of mathematical modelling to **highly relevant research topics**. Moreover, it provides the opportunity to arrange student jobs or thesis.
- Who?** Students from the following courses of study: Mathematics (B.Sc. & M.Sc.), CES (B.Sc. & M.Sc.), Simulation Science (M.Sc.)
- When?** August 30 – September 4th 2021 (Already starting on 26.08. if online seminar)
- Where?** Voeren (Belgium) and RWTH Aachen *or* online
Transportation and accommodation will be organised centrally if in-person event
- Costs?** If in-person event, 70.00 € (transportation, accomodation, catering in Voeren). Otherwise, free.
- Registration?** *** Registration Deadline: **June 1st** ***
- Mathematics (M.Sc.):** Please register on RWTHonline for the „Computational and Mathematical Modeling Seminar“ (**5 CP**).
- Mathematics (B.Sc.):** Please register on RWTHonline for the „Computational and Mathematical Modeling research module“ (**3 CP**).
- CES (B.Sc. & M.Sc.) and SiSc:** Please register on RWTHonline for the „Computational and Mathematical Modeling Seminar“. The CAMMP week Pro will be accredited as a seminar for the M.Sc. (**3 CP**).
- Physics, Computer Science, Data Science:** Interested students can register via E-mail. Accreditation might be possible.
- More information?** See www.cammp.rwth-aachen.de
