

2nd IFIP International Conference on History of Computing and Education

IFIP
World Computer Congress
Santiago de Chile

August 20-25, 2006

2nd IFIP International Conference on History of Computing and Education

Program Committee Co-Chairs

John Impagliazzo, USA
John.Impagliazzo@Hofstra.edu

Program Committee Members

Julián Aráoz, U. Simon Bolivar. VE

Nicolas Babini, AR

Cecilia Berdichevsky, SADIO, AR

Enrique Hinostrroza, U. de la Frontera, CL

Jan Lepeltak, Leeuwarden Polytechnic U., NL

Nelson Maculan, Ministry of Education, BR

Claudio Menezes, UNESCO, UY

Lena Olsson, Stockholm Institute of Education, SE

José Pino, U. de Chile, CL

Christina Preston, Miranda Net Fellowship, UK

Arthur Tatnall, Victoria U., AU

Deryn Watson, King's College London, UK

Jan Wibe, Norwegian U. of Science and Technology, NO

Cristina Zoltan, U. Politècnica de Catalunya, ES

Submission to:

<http://www.wcc-2006.org/hce>

IMPORTANT DATES

Deadline: January 15, 2006

Notification acceptance/rejection: March 15, 2006

Camera Ready deadline: April 7, 2006

HCE 2006: August 20 - 25, 2006

<http://www.wcc-2006.org>

Sponsored by WG 9.7 on the History of Computing and TC3 on Education.

Scope

Although computing is a modern phenomenon, it is important to capture its evolution as it occurred in different parts of the world. This HCE2 conference underscores the importance of recording the historical and educational events as they developed in different countries. Dependent upon location, we find elements of the integration of computing technology within education as far back as the 1960s – and even the 1950s. Therefore, in an effort to preserve this historical evolution, the conference program committee welcomes you to submit contributions to document how computing has interacted with the educational processes from those early days. Hence, the purpose of this conference is to bring forward that history to the global community. Perhaps the experiences of the past, both positive and negative, may be useful for future generations. The temporal scope of this event should cover the early days through the 1980s.

Submission Guidelines

All authors should submit electronically in Portable Document Format (PDF) papers of no more than 4000 words or 8 pages on the web site of the conference www.wcc-2006.org/hce. In addition, you should send a Rich Text Format (RTF) copy by email to the Program Committee Chair, John Impagliazzo, at <John.Impagliazzo@Hofstra.edu>. The name and affiliation of all authors should be included on the paper and the contact information for the lead author should appear on a cover page. Papers should be submitted before **January 15, 2006** following the norms of the official publisher Springer Science+Business Media, IFIP Series. Authors may download instructions for preparing papers from <ftp://ftp.springer.de/pub/tex/latex/ifip/>. They are also encouraged to consult the website at <http://www.springeronline.com>.

Acceptance will be based on quality, relevance and originality and the practical value of the work. Authors will be notified of acceptance or rejection via e-mail by **March 15, 2006**. Full versions of accepted papers (camera-ready) must be written in English, and will be due by **April 7, 2006**.

Panels and Posters submission

Summaries of the proposals of panels and posters should not exceed 500 words or two pages and should follow the norms of the official publisher Springer Science+Business Media, IFIP Series. Submission procedures are identical to those of the paper submissions. Panel sessions should be provoking, present different points of view, and encourage debate. Posters should reflect and illustrate work-in-progress related to the theme of the conference. Authors may download instructions for panel and poster proposals (identical to those for full papers) from <ftp://ftp.springer.de/pub/tex/latex/ifip/> or by consulting the website at <http://www.springeronline.com>.

Invited Speaker: “Decades of Computers and Education - A Roller-coaster Relationship”

Prof. Deryn Watson

Information Technologies and Education, King's College London
