De Nederlandsche Bank, The Netherlands

Program Co-Chairs

Marcos Kiwi, mkiwi@dim.uchile.cl
Universidad de Chile, Chile

Enrique Chaparro,
echaparro@uolsinectis.com.ar
Fundación Vía Libre, Córdoba, Argentina

Ramon Alonso Jaramillo,
rajaramillo@conavi.com.co
CONAVI, Colombia

Scope

You are kindly invited to submit proposals for the security stream of the WCC 2006. This stream will consist of several special events instead of being one parallel conference with refereed papers. Therefore all types of ideas for such events are most welcome: embedded workshops, tutorials, panel sessions, etcetera.

There is no specific theme for the security stream, but proposed topics are expected to address "hot" issues and issues of particular interest to the South American region. Proposals can be academic / research or business / practice oriented. The duration of such events can vary between one hour and two days.

Final selection of the ideas will be based on topics, appeal, quality and "fit in the total program". The final selection will be made by the Security Stream Program Committee, currently consisting of Marcos Kiwi (Chile), Enrique A. Chaparro (Argentina), Ramon Alonso Jaramillo (Colombia) and Leon Strous (Netherlands) and to be extended soon.

Because publishing the security stream presentations in a formal set of proceedings will be considered, **proposals are expected before 1st November 2005**. This deadline differs from the general deadlines of the WCC because proposals may, after having been selected, wish to have a specific Call for Papers for their event.

The intention of the conference is to provide a forum for the exchange of ideas and findings in a wide range of areas related to network control and network engineering with a focus on QoS, security and mobility control.

IMPORTANT DATES

Deadline: November 1st, 2005

Notification of acceptance:
November 20, 2005

WCC Security Stream 2006:
August 20 - 25, 2006

Program Committee Chair

Leon STROUS, strous@iaehv.nl
