Call for Papers

Communications and Multimedia Security 2005
September 19-21 2005, Salzburg University, Austria
http://cms2005.sbg.ac.at

UNIVERSITÄT SALZBURG

Conference and Program Chairs

Jana Dittmann
Stefan Katzenbeisser
Andreas Uhl

IFIP TC-6/TC-11 Chairs

Otto Spaniol
Leon Strous

Program Committee

Andre Adelsbach, Germany
Elisa Bertino, Italy
Carlo Blundo, Italy
Christian Cachin, Switzerland
Ingemar J. Cox, UK
David Chadwick, UK
Bart de Decker, Belgium
Yves Deswarte, France
Elke Franz, Germany
Jessica Fridrich, USA
Patrick Horster, Austria
Ton Kalker, The Netherlands
Stephen Kent, USA
Klaus Keus, Germany
Herbert Leitold, Austria
Nasir Memon, USA
Sead Muftic, Sweden
Fernando Perez-Gonzalez, Spain
Günter Pernul, Germany
Reinhard Posch, Austria
Bart Preneel, Belgium
Claus Vielhauer, Germany
Moti Young, USA

Organizing Committee

Jana Dittmann
Dominik Engel
Stefan Katzenbeisser
Roland Norcen
Andreas Uhl

CMS 2005 is the 9th Communications and Multimedia Security conference. Previous conferences have been held in Darmstadt (CMS 2001), Portoroz (CMS 2002), Torino (CMS 2003), and Windermere (CMS 2004). CMS is a joint working conference of IFIP TC6 and TC11. The CMS conference attempts to be a forum for researchers working on all aspects of communications and multimedia security. This year the organizers especially encourage submissions on topics such as security of information hiding, combined encryption and watermarking schemes, XML security and network security. Papers should have practical relevance to the construction or evaluation of secure systems; theoretical papers should demonstrate their practical significance.

Topics:

We solicit papers describing original ideas and research results related to the Communication and Multimedia Security area. Suggested topics include – but are not limited to:

Applied cryptography	Privacy protection
Biometrics	Security for mobile devices
Security of multimedia content	Network security
Steganography	Secure Electronic Commerce
Digital watermarking	Web security
Cryptography	Digital Rights Management
Identification and authentication	XML security

Important Dates:

Paper Submission:	April 10th, 2005
Notification of Acceptance:	May 30th, 2005
Final Paper due:	June 30th, 2005

Instruction for Authors:

The on-site proceedings will be published by Springer in their Lecture Notes in Computer Science (LNCS) series. Submissions must be written in English, formatted in the Springer LNCS style (limited to 10 pages). In order to enable double-blind refereeing, the paper must be anonymous, with no author names, affiliations, acknowledgements, or obvious references. Each paper must include a short abstract and a list of keywords indicating subject classification; its introduction should summarize the contributions of the paper at a level appropriate for a non-specialist reader. Acceptance of a paper means an obligation for at least one of the authors to attend the conference and present the paper. Authors are requested to submit original papers only. Papers that have previously been published and papers that are currently being considered for publication by another journal or conference are not eligible. All submitted papers will be refereed by members of the Program Committee for correctness, originality, relevance to the conference, and quality of presentation.

To submit a paper please visit the conference web site at http://cms2005.sbg.ac.at.
