

Mobile Product Management Internship (paid) (iPhone, Android & Blackberry)

yuilop is an innovative, international startup based in **Barcelona**, developing a mobile app based communication service that **allows its users to communicate for free with any phone, any phone number and all their friends**. We are looking for **motivated international talents** who want to work in a young and international team to support the Quality and Product Management department in testing new features and guaranteeing the quality of the application.

Job title: *Mobile Product & Quality Management intern (Mr./Mrs. Perfect)*

You will be responsible for making sure that the application leaves our office in high quality and with all features working on all smartphone devices. You'll be expected to work collaboratively with the marketing and development teams.

Key Responsibilities:

- Maintaining / checking / ensuring the quality of the app versions for iPhone, iPod, iPad, Android and Blackberry
- Apply & document advanced testing procedures
- Test and evaluate incoming new app versions from development center
- Plan and perform testing sessions and structured reviews
- Identify areas of improvements and bugs
- Actively collect Feedback and improvement ideas
- Follow up of new features
- Manage quality testing lifecycle
- Walkthroughs to solicit feedback on materials created
- Communicate and coordinate with development, marketing and product management

Requirements:

- Availability half-time (4h) or full-time (8h) for at least 3 - 6 months
- Interested in the mobile market, apps and smartphones
- Patience and determination to explore the problem and all of its elements until the reasoning has been found so that it can be resolved accurately.
- Language skills: Spanish + English oral and written
- Self dependent, responsible, reliable, proactive, result-oriented, team player

Benefits:

This position is an excellent opportunity to gain valuable job skills in the fast growing mobile /app industry (and play around a lot with iPhone, Android and Blackberry Smartphones).

Start date: December 2011

Category: Paid internship, 3-6 months

Location: Barcelona - First Mobile World Capital.
